

M365 Protect Plus

By Cloud9 Security

Your M365 Environment: From Vulnerability to Strategic Advantage

"I think we've had a breach..."

"Licensing is way over budget..."

"We're spending more but feel less secure than ever..."

Sound familiar? As a technology leader, you're not alone. Today's M365 environment can be a labyrinth of licensing complexities, security vulnerabilities, and hidden costs. It's keeping CTOs awake at night and overwhelming IT teams who are already stretched thin.

The Complete Solution: Assessment, Remediation, Optimisation

M365 Protect Plus, delivered by Cloud9's Microsoft Cloud security specialists, combines our powerful M365 Protect and M365 Optimise solutions with ongoing remediation and continuous improvement—all in one comprehensive subscription service.

This is more than just an assessment or monitoring tool. It's a complete transformation of your Microsoft 365 environment with expert-led implementation, proactive security enhancement, and strategic optimisation throughout your subscription.

Imagine Your M365 Environment Where:

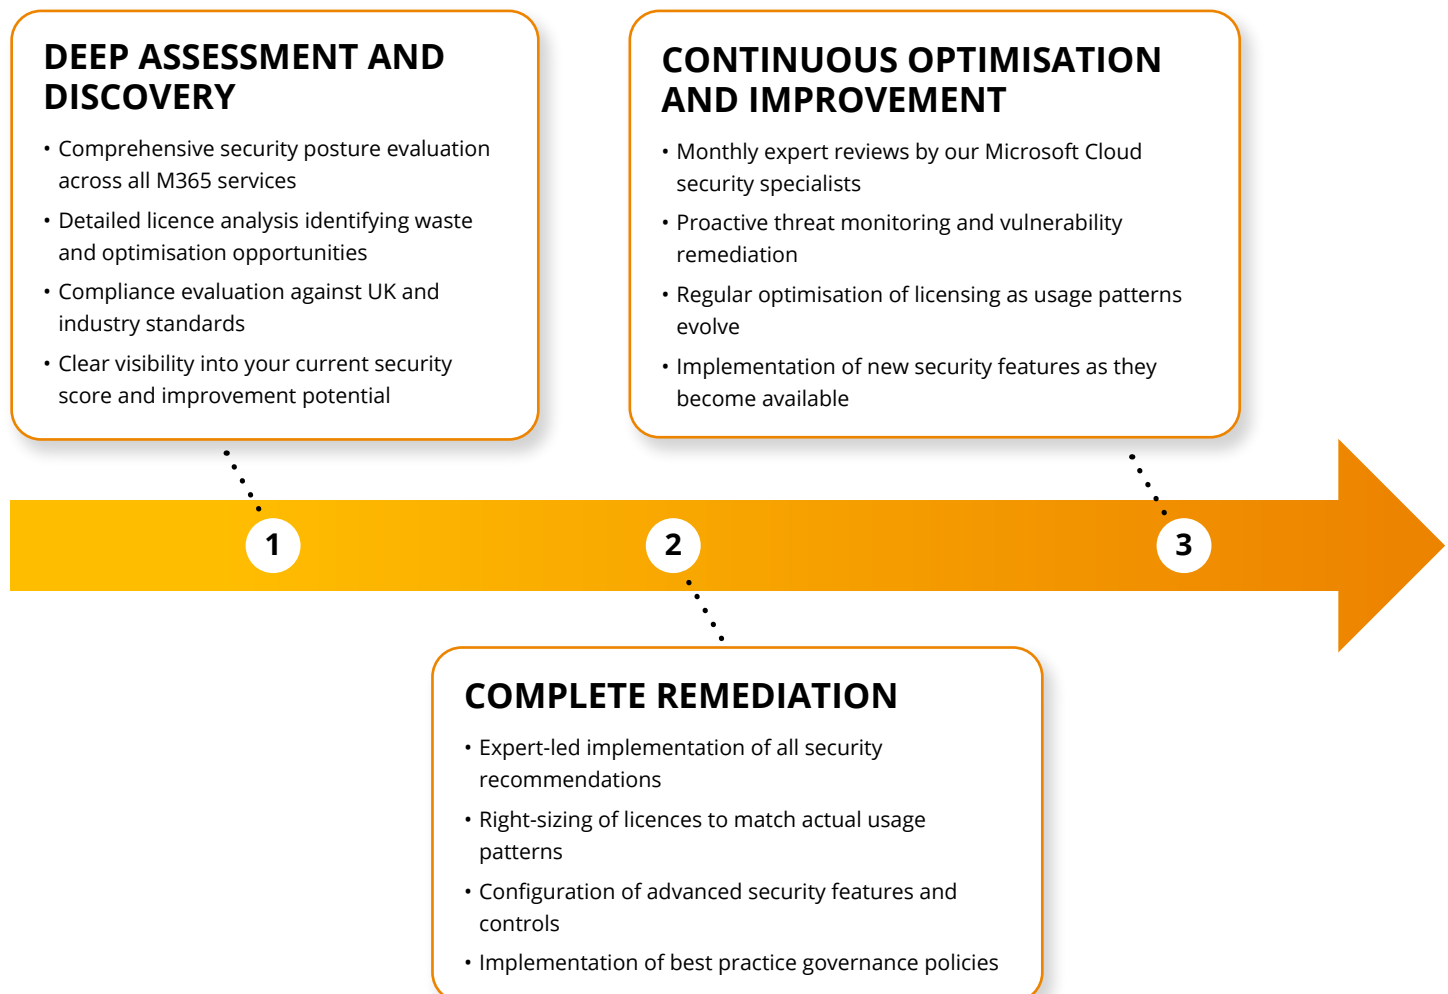

- **Every licence** is precisely matched to actual user needs, eliminating waste
- **Security measures** work effectively in the background, with all vulnerabilities remediated
- **Every technology decision** is backed by real data and specialist guidance
- **Your team** focuses on strategic initiatives, not mundane maintenance. Problems are caught and fixed before they impact your business
- **Continuous improvement** is built into your environment, not just an aspiration

Why M365 Protect Plus?

The traditional approach to M365 security and optimisation leaves significant gaps:

- Typical Approach
- One-time assessments that quickly become outdated
- Recommendations without implementation support
- Tools that generate alerts but lack context
- Point solutions that address individual challenges
- DIY implementation that strains internal resources
- The M365 Protect Plus Difference
- Continuous monitoring and regular expert reviews
- Complete remediation of all identified issues
- Microsoft security specialists who interpret findings
- Comprehensive approach covering security, licensing, and compliance
- Expert-led implementation and ongoing support

The Complete Journey to M365 Excellence

Your Success Outcomes with M365 Protect Plus:

Financial Benefits:

- Stop overpaying** for unused or unnecessary licences
- Reduce risk** of costly security incidents and compliance penalties
- Maximise ROI** from your Microsoft 365 investment
- Avoid unexpected costs** through proactive planning

Security and Compliance:

- Strengthen your defences** against evolving cyber threats
- Achieve and maintain** an optimal Microsoft Secure Score
- Ensure compliance** with UK regulatory requirements
- Build a Zero Trust security model** that protects without hindering productivity

Operational Excellence:

- Free your IT team** from mundane monitoring and maintenance
- Focus internal resources** on strategic business initiatives
- Reduce alert fatigue** with expert-filtered insights
- Maintain peak performance** through continuous optimisation

Strategic Advantage:

- Transform IT** from cost centre to business enabler
- Support flexible working** with confidence in your security
- Enable innovation** with a stable, secure foundation
- Stay ahead of the curve** with proactive technology adoption

What Sets M365 Protect Plus Apart

Unlike standard assessments or monitoring tools, M365 Protect Plus delivers:

- **Complete remediation** of all identified issues, not just recommendations
- **Continuous improvement** through regular expert reviews and proactive updates
- **Strategic guidance** from Microsoft Cloud security specialists
- **Ongoing support** throughout your subscription term
- **Peace of mind** knowing your M365 environment is secure and optimised

Why Choose Cloud9?

- **Microsoft Cloud Security Specialists:** Deep expertise in Microsoft security solutions, ensuring you get the most out of your investment.
- **UK-Focused:** Understanding of local compliance and business needs, tailoring solutions to the unique requirements of UK SMEs.
- **Proven Track Record:** High client satisfaction scores and successful implementations across various industries and company sizes.
- **Holistic Approach:** We align security with your broader IT and business strategy, ensuring a cohesive and effective security posture.
- **Human-Led Service:** Technology enabled, but expert driven – combining the best of automation with specialist interpretation.

"Cloud9 improved our Microsoft Secure Score from 23% to 92%, practically overnight. There's something very comforting in knowing you're in a safe pair of hands that you can trust."

Alex Manning, Head of IT, Tecknuovo
